Subject: Latest version of the page, with today's public meeting and additional websites

Sorry for the flurry of emails just now, Lisa! ☺

The VERY latest version of the page shows the public meeting:

<http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>

But again, I might need a Word doc version of what the ENTIRE Web page will need to look like—especially the first part, since we have updated information now.

Thanks!
